

USER MANUAL TDIWC2L

- 1. HD Lens
- 2. LED Touch Button
- 3. Microphone
- 4. LED Fill Light
- 5. USB Connector
- 6. Multi-function base

LED Fill Light Introduction:

Touch the finger print on the top of the camera once and the warm light will turn on. Touch it again and the light will switch from warm to cold. Touching the camera a third time will turn both lights at the same time. Long time touch of the button can adjust intensity of the light.

Installation Steps:

1. Open the multi-function base and adjust the placement of your camera.
2. Insert the USB data cable into your computer
3. Choose your desired lightning and start enjoying your new webcam!
